Email: kevin.feltrin@edu.esiee.fr | **LinkedIn:** linkedin.com/in/kevin-feltrin/ | **Portfolio:** kvnfltr.github.io

EDUCATION

ESIEE Paris/Gustave Eiffel University

Champs-sur-Marne, France

MSc in Engineering (French Diplôme d'Ingénieur, Master's-level, 5-year), currently in fourth year Sep 2022 – Aug 2027
Majoring in Data Science and Artificial Intelligence

- Honors, Ranked 18th/143, **Ranked 1st** in AI and Deep Learning and in Microcontroller Systems
- Exchange Semester: **University of Bologna**, Italy (Sep 2024 – Jan 2025)
 - Relevant Courses: Machine Learning, Statistics and Algorithms for Big Data, Queuing Theory

Sorbonne University

Paris, France

B. Sc. in Physics

Sep 2023 – Aug 2026

- Relevant Courses: Thermodynamics, Mechanics, Special Relativity

Lycée Jean Moulin

Angers, France

Baccalauréat S - National secondary level diploma in math and physics, High Honors

Sep 2019 – Aug 2022

EXPERIENCE

Reaply (reaply.ai)

Paris, France

Co-Founder – Applied AI for Review Intelligence

Apr 2024 – Present

- Data Engineering: Process 10k+ reviews/day across 200+ locations, building pipelines for collection, cleaning, and storage using Python and cloud database systems
- Generative AI & Analytics: Automate multilingual replies and extract key insights (themes, sentiment, intent) using the OpenAI API and external integrations

CNRS, ESYCOM Laboratory

Marne-la-Vallée, France

Research Intern – Nano-Generators & Electronic Systems

Jun 2023 – Jul 2023

- Circuit Simulation: Modeled and evaluated conditioning circuits for triboelectric nano-generators (TENG) under varying loads using LTSpice
- Laboratory Experiments: Executed measurements (oscilloscope, sensors) and validated Bluetooth-powered transmission using electronic test benches and data analysis tools
- Supervision: Supervised by [Prof. Philippe Basset](#)

PROJECTS

University Space Management Mobile App (2025, team of 4): Delivered a cross-platform scheduling app with Firebase (Auth, Firestore) and implemented room booking logic; awarded **Coup de Cœur Prize** at the 20th ESIEE "Jour des Projets" competition

Supervision: Supervised by [Prof. Hassane Mimoun](#)

Facial Recognition System (2025, 2-person project): Built a full pipeline for face (detection, pose, encoding, classification) combining CNNs with SVM/logistic regression/kNN; 97% test accuracy, analyzed bias and data diversity

Supervision: Supervised by [Prof. Laurent Najman](#)

SKILLS & INTERESTS

Languages: French & Moroccan Arabic (native); English (professional); German (B1)

Programming: Python; Java; C; HTML/CSS

ML & Data: TensorFlow/Keras; scikit-learn; NumPy; pandas; OpenAI API

Cloud & Dev: Firebase (Auth, Firestore); SQL; API integrations; Flutter; Android Studio; cloud databases

Volunteering: Secretary-General Representative, Jeunes Français de l'Étranger (JFDE), representing young French expatriates to the French government

Interests: AI; startups; piano; martial arts
